WHO WE ARE

Ten Mile is an Indigenous owned and operated business, led by managing director Ronnie Burns.

We are an earthmoving, trucking and logistics, traffic management, labour hire, and petroleum supply business.

Supplying skilled Indigenous staffing, procurement, and logistics solutions.

The name "Ten Mile" originates from the land (Ten Mile Creek and Beach Area) where Ronnie and his ancestors originate and remains in Ronnie's family to this day.

"Ten Mile is my grandfather's country and Manuwarimi is our clan. This is where we were taught how to live off the land, how to survive, build resilience, overcome challenges, and thrive by building trust and respect."

SOCIAL, INDIGENOUS, SUSTAINABLE

Our social, Indigenous and sustainable procurement complies with the State Social Procurement Framework (SPF), the Federal Government's Indigenous Procurement Policy (IPP) and the Government's support and weighting of sustainable practices.

JOINT VENTURE PARTNERSHIPS

Ten Mile's joint venture partnerships deliver industry leading cross border expertise, experience and capability across:

- Project management ,
- Engineering and Design,
- Procurement,
- Electrical and Civil Construction & Commissioning,
- Plant and Equipment Fleet,
- Skilled Personnel.

With established trusted specialist partnerships ensuring the seamless delivery of multi discipline and complex projects saving you time and cost.

Together we can deliver on a complete EPC (Engineering, Procurement, and Construction) service, encompassing all facets of Civil and Electrical Construction Capability to the renewables and infrastructure sector.

EXTENSIVE FLEET

We have an extensive fleet of (new or near-new) civil equipment, alloy and steel trucks, quads and trailers, that meet all Tier 1 specifications. Currently working on Big Build infrastructure projects, renewable projects (Battery Energy Storage System (BESS), solar, wind, water, transmission and data centres), basement digs and master planned residential and commercial estates.

OUR VISION

Providing diverse and sustainable opportunities for Aboriginal and Torres Strait Islander peoples and communities.

PROCUREMENT

SOCIAL PROCUREMENT

Our Social, Indigenous, Sustainability Procurement complies with both the State's Social Procurement Framework (SPF), the Federal Government's Indigenous Procurement Policy (IPP) and Government sustainability targets.

We are an equal opportunity employer and work with local Indigenous communities to find workers to suit your needs, and we also work in other areas of social procurement, notably:

- **Diversity and inclusivity:** We are committed to supporting priority job seekers who face barriers to employment. This includes Aboriginal and Torres Strait Islander peoples, long-term unemployed individuals, people with disabilities, youth at risk, refugees, and those experiencing socio-economic disadvantage.
- **Local jobs:** We mentor and recruit team members, operators and labour throughout Victoria, to support projects with local employment.
- **Supply chain:** We include social enterprises, Aboriginal businesses, as well as disability enterprises, to meet Social Procurement Framework goals and Aboriginal Employment targets for our clients on major projects.

SUSTAINABILITY

Our first-in-Australia full electric fleet of excavators and trucks was the beginning of our journey to actively implement ethical and sustainable practices.

For more details visit our website:

www.ten-mile.com.au

- This initiative enhances the ethical, environmental, social, and economic impact of both our business and our clients' operations, and represents a significant step towards a greener planet.
- We work closely with treatment, recycling, and re-purposing facilities to source locally manufactured, high-quality reusable materials. These include screened and washed aggregates, sand, and soil mixes.
- By reintroducing recovered materials into civil construction projects, we help reduce environmental impact and promote circular economy practices.

SOLUTION FOCUSED - IMPLEMENTING PREVENTATIVE MEASURES SOLVING COMPLEX CHALLENGES

EXPERTISE, CAPACITY AND CAPABILITIES

CIVIL EARTHWORKS:

CLIENT: SYMON BROS CONSTRUCTIONS

For Developer: Stockland

Projects:

- **Cloverton Estate, Melbourne Kalkallo**
 - 15 years of development, with Cloverton set to become Victoria's largest master-planned community.
 - **Contract Value: \$1,500,000** for each stage
- **Highlands Estate, Craigieburn**
 - 20 years of development. Highlands will have it all, with over 20 parks, 5 schools, entertainment, world-class sporting facilities, fantastic shopping opportunities and medical facilities.
 - **Contract Value: \$500,000** for each stage
- **Mickleham and Mt. Atkinson Truganina**
 - 8 years of development, seamlessly integrating work, education, shopping, health services, plus 50+ hectares of beautiful natural surrounds, with plans for innovative infrastructure.
 - **Contract Value: \$1,800,000** for each stage

Status: Ongoing

Scope of Works:

Extensive Civil works and bulk excavation, road boxing, electrical trenching and drainage, deep sewer excavation, wetlands construction, loading and cartage, spoils import and export solutions, traffic management, labour and equipment dry hire.

CLIENT: DUCON CONSTRUCTION SERVICES

Project: Building Fire Station for Fire Rescue Victoria (FRV) Broadmeadows.

Status: Completed

Scope of Works: Extensive earthworks, cartage & tipping of all waste materials, both contaminated and non-contaminated, levelling off of the site areas, trenching works, and cut & fill to required geotechnical specifications. We also managed and coordinated all traffic control.

Contract Value: \$650,000

SOLUTION FOCUSED - IMPLEMENTING PREVENTATIVE MEASURES SOLVING COMPLEX CHALLENGES

MAJOR PROJECT WORKS

CLIENT:

LANDTRAK, STARBUCK, EPH AND FPH

Project: North East Link (Part of Victoria's Big Build NELP)

Status: Ongoing

Scope of Works: We are responsible for cartage and disposal of spoils, rock and asphalt, landfill disposal sites, resource recovery facilities, soil remediation, EPA-classified spoils and asbestos management, including wrapping and disposal with extensive collaboration with multiple treatment facilities.

Our Contract Value: \$3m+

CLIENT: LANDTRAK

Project: Suburban Rail Loop (SRL) and Level Crossing Removal Projects

Status: Ongoing

Scope of Works: Cartage and disposal of spoils, rock and asphalt, landfill disposal sites, resource recovery facilities, soil remediation, EPA-classified spoils and asbestos management, including wrapping and disposal, with extensive collaboration with multiple treatment facilities.

Contract Value: \$6m+

RENEWABLE ENERGY PROJECTS

VICTORIA

Project: BESS Project Engagement

SPD and Ten Mile currently hold preferred status on two Battery Energy Storage System (BESS) projects ranging from 100 MW to 120 MW.

Scope includes civil and electrical engineering design, bulk and detailed earthworks, structural foundations, mechanical and electrical installation, and commissioning.

Further details will be shared upon contract award.

QUEENSLAND

Project: Solar and BESS Project Engagement

SPD and Ten Mile currently hold preferred status on an 80 MW Solar / 160 MW BESS project. The scope includes civil and electrical engineering design, bulk and detailed earthworks, structural foundations, mechanical and electrical installation, and site commissioning. Further details will be provided upon contract award.

TRAFFIC MANAGEMENT

CLIENT: MAXCON CONSTRUCTION

Project: "R.Iconic", South Melbourne and "Windsor", Melbourne

Status: Ongoing

Scope of Works: We were and remain responsible for all traffic control, from planning and permits to implementation.

Our Contract Value: \$1.5m+

CLIENT: ADELAIDE OVAL TURF SOLUTIONS

Project: Geelong Stadium Resurfacing

Status: Ongoing

Scope of Works: We have been awarded the traffic control (planning and implementation), civil works (bulk excavations, wicket removal, grading, trimming, compaction and leveling), plus the cartage works (sand importation, coordination and disposal of both contaminated and uncontaminated soils).

Our Contract Value: \$600,000

CLIENTS: SRS SPRAY LINES & FOREST FIRE MANAGEMENT (FFM) / DEECA (DEPARTMENT OF ENERGY & ENVIRONMENT AND CLIMATE ACTION) & BALLARAT CITY COUNCIL

Projects include:

Department of Transport – Ballarat, Horsham, Maryborough & Norlane

Status: Ongoing

Scope of Works:

- Road edge maintenance
- Road resurfacing
- Guardrail installations
- Roadside vegetation management
- General highway maintenance
- Emergency traffic management during road accidents, including road closures and detours
- Response to bushfire emergencies with road closures and traffic control during recovery operations

PROVEN TRACK RECORD:

Alliance Partnerships

Our strong alliance partnerships are built on a proven track record of successful delivery across Victoria, Queensland, and South Australia in Australia, as well as Auckland in New Zealand.

Servicing Industry

We support a broad range of sectors including road, rail, infrastructure, renewables, subdivisions, industrial developments, and construction. Our capabilities span basement excavations and large-scale residential and commercial master-planned estates. We also provide comprehensive spoil import and disposal solutions for all waste types—both contaminated and non-contaminated—ensuring safe, compliant, and efficient material management.

EXPERTISE

OUR SERVICES

We are EPA- and RIW-certified, delivering trusted solutions across earthmoving, trucking and logistics, traffic management, labour hire, petroleum supply cartage, and spoil disposal and import services.

We safely manage the transport and disposal of all EPA-classified contaminated materials, including asbestos wrapping and disposal, in collaboration with accredited treatment and recycling facilities.

Our industry-leading, automated HSQE Integrated Management System (IMS) ensures real-time compliance, documentation, and fleet oversight, demonstrating our commitment to technology, safety, quality, and environmental responsibility.

We are proud members of the Master Builders Association and the Civil Contractors Federation Victoria, and are certified under the Heavy Vehicle National Law (HVNL), EPA, and RIW standards.

LOCAL EXPERTISE, CULTURAL UNDERSTANDING

With deep local knowledge and extensive experience across Victoria's construction, infrastructure, and renewable energy sectors, our team delivers projects safely and to the highest standards. We are committed to creating sustainable employment for Aboriginal people, aligning with the Social Procurement Framework goals and Aboriginal Employment targets. This approach strengthens community engagement while supporting inclusive economic growth.

Our commitment to maintaining full oversight of project deliverables ensures consistent quality, timely execution, and confidence for our clients.

NATIONAL REACH, JOINT VENTURE STRENGTH

Ten Mile's Joint Venture Partnerships deliver industry leading Cross border expertise, experience and capability across:

- Project Management,
- Engineering and Design,
- Procurement,
- Electrical and Civil Construction and Commissioning,
- Plant and Equipment Fleet,
- Skilled Personnel.

Our established partnerships with trusted specialists enable the seamless delivery of complex, multi-disciplinary projects. These alliances are built on proven collaboration and shared expertise, helping to streamline execution, reduce costs, and save valuable time for our clients.

Together, we deliver complete EPC (Engineering, Procurement, and Construction) services, covering all aspects of civil and electrical construction for the renewables and infrastructure sectors.

CLIENT TESTIMONIALS

Chris Tanti, Strategic Project Delivery (SPD)

"I have worked with Anthony and his team (Ten Mile/SCIIG) now on a variety of small to large renewable opportunities throughout VIC, QLD, and NSW. They are professional, honest, and get the job done, exceeding expectations always. We have strategically aligned ourselves with them going forward, as the collective skillset provides our clients with a complete turnkey solution."

John Golubovic, Symon Bros

"Ten Mile has supported Symon brothers in many of our residential and commercial estate developments with multiple expert operators, and Civil equipment - from Mini excavators to large machines with Topcon GPS. The experienced operators, dedicated management team and new, well-maintained equipment have all proved punctual, economical, efficient, and highly reliable. Supporting SB projects to run on time and within budget with no down time."

Daniel, Ducon Building Solutions

"We have forged a strong working relationship over many years with Ten Mile, Civil and Traffix. They stand for excellent business ethics, honesty, and a level of care that is industry-leading. I have no hesitation in recommending them for any endeavour."

John Alberti, ACE Contractors

"We have been in this business a long time. It is great to find another honest, trustworthy and reliable Civil Contractor."

Jonathon Griffiths, Vertu Equipment Victoria

"As one of our main clients, Ten Mile have priority access to our entire range of 1.8 to 100T+ machines. Our strategic partnership has been extremely successful for the past two years and is only getting stronger."
